## WRSA Members & Fighters Licence

In order to train at a World Ring Sports affiliated club or to take part in a World Ring Sport sanctioned event you will need a licence.

If you are just going to train you will require a member licence. If though you are going to compete in competition you will require a Fighters licence.

The benefit of a licence is that it gives you both personal accident and public liability cover as well as a licence book to have your gradings officially recorded.

**Please Note:**

Personal accident insurance does not cover competitive fights with payment in excess of £100. Also you must be over 5 years old.

Details of cover are available from the WRSA office.
